John E. Reid and Associates is extremely proud to be celebrating 75 years of excellence this year – for the past 7 decades, we have trained hundreds of thousands of investigators from law enforcement, government, and corporations on how to conduct effective investigative interviews and when appropriate, interrogations.

The Reid Technique is the most widely used investigative approach in the world (we have conducted training courses in over 30 countries). In surveys of course graduates 97% of the respondents reported that using The Reid Technique increased their case resolution rates and 100% reported that the benefits they received attending the course were worth the investment they made to attend the program. Over the last 76 years we have published numerous books, articles and investigator tips; developed a variety of new training programs; audio and video training materials; and a YouTube channel – The Reid Technique Tips. Visit www.reid.com for details.

All of us at John E. Reid and Associates want to thank you for your support as we continue to present the finest training in the world.

Here is what you will learn at this training program:

- *How to interpret verbal and non-verbal behavior to assess the credibility of a victim, witness or suspect's statements*
- *How to use behavior provoking questions in the interview process*
- *How to use THE REID NINE STEPS OF INTERROGATION® process to:*
 - ✓ *Develop interrogation strategies*
 - ✓ *Develop themes (persuasive statements)*
 - ✓ *Develop the alternative question to elicit the first admission*
 - ✓ *Handle the more defiant subject and 'overcome objections'; address the subject's fears; move past the subject's denials and motivate the subject to want to tell the truth*

THE REID TECHNIQUE® *Protecting the Innocent & Identifying the Guilty*

THE CORE PRINCIPLES

- *Always treat the subject with dignity and respect*
- *Use empathy, sound reasoning, and logic to elicit the truth and do not make any promises of leniency or threats of harm or inevitable consequences*
- *Do not conduct interrogations for an excessively lengthy period of time*
- *Do not deny the subject any of their rights*
- *Do not deny the subject the opportunity to satisfy their physical needs*
- *Exercise special cautions when questioning juveniles or individuals with mental or psychological impairments*
